2:30 pm

*Not another moment or life lost to
seizures. #endepilepsy*

Thank you for 13 incredible years!

In August of 2010, Peggy Sherrell(46) died from SUDEP (Sudden Unexpected Death due to an Epileptic seizure). Our family has vowed to help find a cure and to aid as many families as possible with this disease. 1 in 26 people will develop epilepsy in their lifetime. Epilepsy is more common than most people think. More than 3 million Americans have this neurological condition, with over 90,000 of them living in Kentucky and Southern Indiana. Each year, the Epilepsy Foundation and its affiliates urge Congress to increase funding for epilepsy research and new treatments, to help improve the quality of life for those affected. One day, we can only hope that not another life will be lost to seizures. Until that time comes, we will work tirelessly with the Epilepsy Foundation of Kentuckiana to advocate for every child and adult living with epilepsy.

The family of Peggy Sherrell would like to thank you for your participation in the 13th annual golf scramble. Your contributions have helped us donate over \$200,000 to the Epilepsy Foundation of Kentuckiana.

Team Registration

\$300

TEAM CAPTAIN:

Company:

Address:

City: _____ State : _____
